The CA125 Gene: An extracellular superstructure dominated by repeat sequences
Tumor Biology 348-366 volume 22. Issue 6, 2001

I contacted both the editor and the main publishing office for this publication. The editor has not responded, and Karger publishing requires payment for publication dates.

The following libraries received volume 22, issue 6 on the corresponding dates:

Columbia University Augustus C. Long Health Sciences Library - Jan. 24, 2002

U of Connecticut, Health Center - January 29, 2002

U of Michigan, Taubman Medical Library - February 6, 2002

Please let me know if you have any questions.
